PROFESSIONNEL

ALWAYS INNOVATE

WELCOME TO THE OLIGO FAMILY

Oligo was born in 1986, rooted in both the heart of the Cohen family and the vibrant city of Montréal. Dedication and expertise have always been second nature to us. For the first two decades, we channelled our passion into research and development, providing top-tier hair care formulations to cosmetic companies worldwide. As we perfected our craft and sourced the finest ingredients, we found ourselves at the forefront of a professional hair care renaissance.

THE EVOLUTION OF PROFESSIONAL HAIR CARE

Oligo Professionnel was founded to create healthier, safer, salon-exclusive products. Guided by our family's expertise and commitment, we ensure every formula protects stylists and guests, delivering consistent, high-performance results. Our passion for excellence drives us to refine our products through rigorous testing, always focused on brilliance and safety.

Though Oligo Professionnel has gained global recognition, our heart and inspiration remain in Montréal, Canada's style and fashion capital. At the crossroads of European elegance and North American drive, Montréal's unique esprit—its blend of French sophistication and English directness—shines through in everything we do.

2024

When you touch hair, you touch lives. Together, we can elevate the guest experience and give them the care they deserve. On behalf of my family, thank you for choosing Oligo Professionnel for your salon."

ILAN COHEN, PRESIDENT

CARE & STYLING

blacklight LIGHTENING SYSTEM

Blacklight is a comprehensive lightening system that caters to all of your needs with advanced technologies existing in each lightener, offering fully customisable lightening benefits.

SMART DEVELOPERS

Specially formulated to provide perfect consistency of final mix, to deliver optimal lifting and to facilitate application. The Blacklight developers ensure consistent and reliable results with each application.

- Gradual Bond Protection Technology: the protection level increases with the concentration of hydrogen peroxide
- Hydrolysed Vegetable Protein - replenishes, strengthens and protects the hair
- Biomimetic Ceramide- replaces lipids, provides lustre and manageability, prevents further damage

DEVELOPERS

- 10 VOLUME - 3%
- 20 VOLUME - 6%
- 30 VOLUME - 9%
- 40 VOLUME - 12%

For extra care, add Blacklight Smart Bond Protection and Strengthening Concentrate:
1 pump per 30 g / 1 oz of Blacklight lightener

EXTRA BLONDE

Its positively charged compound forms an ionic bond during the lightening process, which not only protects and smooths the hair cuticles but also ensures uniform colour results, leaving the hair soft, shiny, and free from static.

- Can be mixed with any Blacklight Lightener
- Dust-free
- Up to 9 levels of lift on natural hair
- Up to 8 levels of lift on colour-treated hair
- On and off scalp applications

MIXING:

- Off scalp 1:1
- On scalp 1:2 (10 to 20 Vol. only)
- Smart Developers: 10 Vol. (3%) to 30 Vol. (9%)
- 40 Vol. (12%) not recommended

COOL TONED BLONDE

Achieve lightening and toning in one step with our formula infused with powerful dyes and pigments. These effectively neutralise undesired brassiness, delivering a stunning, cool-toned blonde result.

- Can be mixed with any Blacklight Lightener
- Dust-free
- Up to 8 levels of lift on natural hair
- Up to 7 levels of lift on colour-treated hair
- On and off scalp applications

MIXING:

- Off scalp 1:1
- On scalp 1:1.5 (10 to 20 Vol. only)
- Smart Developers: 10 Vol. to 40 Vol.

For extra protection, add Blacklight Smart Bond Protection and Strengthening Concentrate: 1 pump per 30 g / 1 oz of Blacklight lightener

BALAYAGE CLAY LIGHTENER

Recommended for balayage and hair painting techniques. Its special formula enfolds the hair strands into a hard shell, maintaining a perfect balance of moisture and optimal texture to create accurate and precise freehand blondes.

- Can be mixed with any Blacklight Lightener
- Clay lightener - Derived from Kaolinite
- Enriched with jojoba and olive oils
- Up to 6 levels of lift on natural hair
- Up to 5 levels of lift on colour-treated hair
- On and off scalp applications

MIXING:

- Off scalp application 1:2
- On scalp application 1:2 (20 Vol.)
- Smart Developers: 20 vol. to 40 Vol.

LIGHTENING CREAM

Blacklight Lightening Cream uses proven technology to achieve spectacular blondes by combining lightening and hydration. Its high lipid concentration protects both hair and scalp during the lightening process.

- Can be mixed with any Blacklight Lightener
- Enriched with jojoba and olive oils
- Contains pigments
- Up to 7 levels of lift on natural hair
- Up to 6 levels of lift on colour-treated hair
- On and off scalp application

MIXING:

- Off scalp application 1:1
- On scalp application 1:1 (10 to 20 Vol. only)
- Smart Developers: 10 vol. to 40 Vol.

APPLICATION

APPLICATION:

- Apply to dry, non-shampooed hair.
- Do not use artificial heat to reduce processing time.

HIGHLIGHTING TECHNIQUES:

- Apply the product to the desired areas using foils or papers.
- After the desired level of lifting is achieved, rinse thoroughly and towel dry hair.
- Wash hair with Blacklight Nourishing Shampoo.
- Tone the hair with Calura Gloss or Calura Permanent Shine with Demi Effect Lotion.
- Rinse thoroughly and complete the service with Blacklight Nourishing Conditioner or Replenishing Mask.

GLOBAL PRE-LIGHTENING:

- Apply product first to mid-lengths and ends, leave to process.
- Then apply a fresh mixture to the new growth area following on scalp mixing ratio, and leave to process.
- Rinse thoroughly, wash with Blacklight Nourishing Shampoo.
- Tone the hair with Calura Gloss or Calura Permanent Shine with Demi Effect Lotion.
- Rinse thoroughly and complete the service with Blacklight Nourishing Conditioner or Replenishing Mask.

NEW GROWTH APPLICATION:

- Apply the product to the new growth area.
- Avoid application on previously pre-lightened hair.
- Monitor the process every 5 minutes.
- Rinse thoroughly, wash with Blacklight Nourishing Shampoo.
- Tone the hair with Calura Gloss or Calura Permanent Shine with Demi Effect Lotion.
- Rinse thoroughly and complete the service with Blacklight Nourishing Conditioner or Replenishing Mask.

COLOUR CLARIFYING

To remove unwanted pigments and investigate the previous colour history.

1. Mix:

1 part Blacklight Lightener
1 part of Blacklight Replenishing Shampoo

2. Apply to dry or damp hair on the area to treat

3. Visually control until the desired result is achieved.

COLOUR CLEANSING

To clean and lighten hair up to 3 levels.

1. Mix:

1 part Blacklight Lightener
1 Part Blacklight Smart Developer 10 Vol. (3%) or 20 Vol. (6%)

1 part of Blacklight Nourishing Shampoo

2. Apply to dry hair

3. Visually control until the desired result is achieved.

COLOUR REMOVING

To remove colour and lighten hair more than 3 levels.

1. Mix:

1 part of Blacklight Lightener
The recommended mixing ratio of Blacklight Smart Developer

2. Apply to dry hair

3. Visually control the desired result
If needed, repeat the process with 20 Vol. (6%) until obtaining the desired result.

POWERSHADES

Blacklight PowerShades offer a curated selection of four highlighting shades and one clear shade designed to lighten and deposit colour in a single step, delivering incredible shine and deep contrast on coloured hair. Specifically formulated for highlighting techniques.

- Superior shine and conditioning, detangling properties.
- Lighten and deposit colour in one single step.
- Lighten colour with colour.

	PS - C	PS - 12	PS - 32	PS - 43	PS - 55

3				40 Volume	

MIXING:

- 1:1
- Processing time: 30-45 min.
- Off scalp applications only

Up to 5 levels of lift on natural hair
Up to 4 levels of lift on colour-treated hair

Do not apply to a pre-lightened base or sensitised hair.

blacklight

SMART

HIGH-PERFORMANCE BOND BUILDING

Blacklight SMART is a regimen designed to strengthen, protect, detoxify, and repair hair before, during and after chemical treatments while also offering added benefits to the scalp. This line of products offers formulas that are specially created for both professional use and home care.

WHY IS BLACKLIGHT SO SMART?

TARGETS THE 4 MAIN BONDS WITHIN THE HAIR:

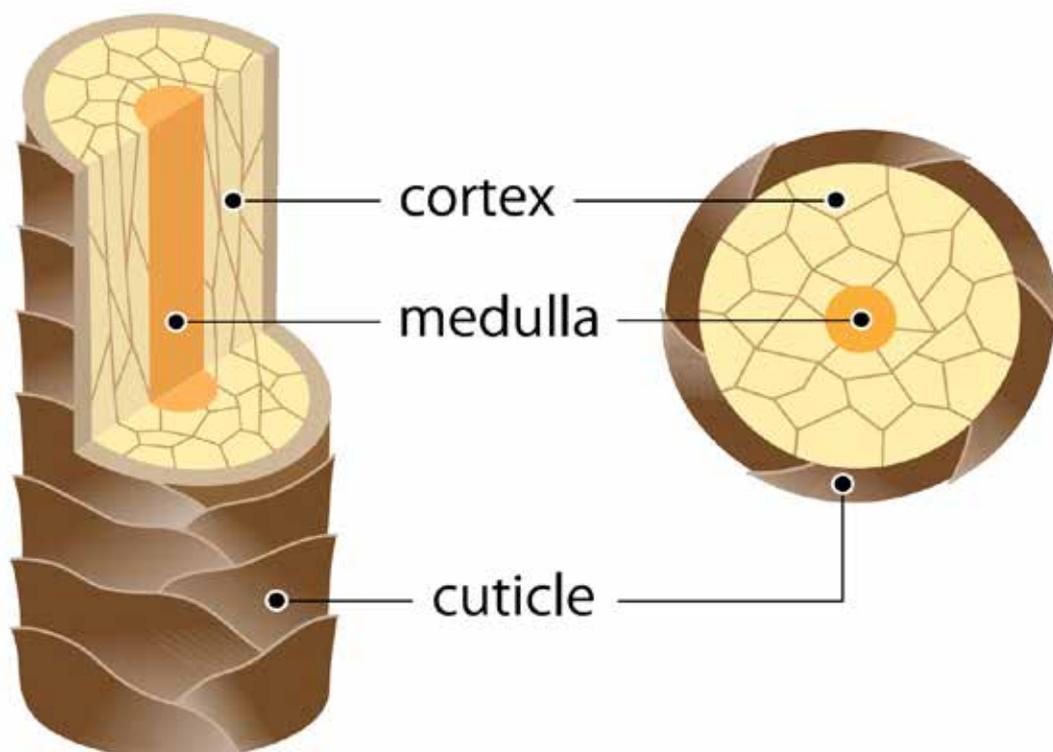

- Salt - accounts for strength and elasticity
- Sugar - maintains moisture content
- Hydrogen - accounts for elasticity
- Disulphide - holds the hair fibre together, strengthening

CORE BENEFITS:

- Bond Building and Repair
- Bond Protection and Strengthening
- Purification and Scalp Care
- For all hair types and textures

FREE FROM:

- Silicone-free, Sulphate-free, salt-free (Sodium Chloride), lialal-free, paraben-free, Formaldehyde-free, Methylisothiazolinone (MI) free, MCI/MI free, gluten-free, does not contain animal-derived materials, not tested on animals.

BOND PROTECTION & STRENGTHENING CONCENTRATE

99.23%

**NATURALLY DERIVED
INGREDIENTS**

KEY FEATURES

- Additive for lightening and colouring services
- In salon stand-alone pro treatment
- Strengthens and protects the inner and outer structure of the hair
- Porosity control and colour longevity
- Pre-measured pump

KEY INGREDIENTS

Hydrolysed Rice Protein – The amino acid profile in this protein increases the ability of skin and hair to retain moisture during chemical processes. This protein is rich in cystine, which contributes to hair's inner strength and elasticity.

Polyquaternium-39 – Porosity controller

PURIFYING SHAMPOO & PRO PURIFYING SHAMPOO

97.37%

NATURALLY DERIVED
INGREDIENTS

PURIFYING SHAMPOO KEY FEATURES

- Nourishes the hair and scalp
- Promotes scalp health
- Brings nutrients to the hair bulb
- Offers sebum control

KEY INGREDIENTS

Arnica - Garlic - Burdock - Roman Chamomile - Watercress Ivy - White Nettle - Pine - Rosemary

PRO PURIFYING SHAMPOO KEY FEATURES

- IDT (Impurity Detection Technology)
- Purifies hair and scalp from chemical residue
- Lathers pink if chemical residue is present
- Prevents scalp irritation
- Supports scalp health

REPAIR CONDITIONER

97.35%

NATURALLY DERIVED
INGREDIENTS

KEY FEATURES

- Repairs damaged areas on the hair's surface
- Restores hair's shine and manageability
- UV protection
- Colour protection
- Frizz control

KEY INGREDIENTS

Hempseed oil - Argan Oil - Moringa Seed Oil - Phytantriol - Vitamin E - Panthenol

BOND BUILDING & REPAIR TREATMENT

90.75%

NATURALLY DERIVED
INGREDIENTS

KEY FEATURES

- Builds new and repairs existing bonds
- Creates additional hydrogen bonds
- Nourishes the hair
- Replenishes hair's lipid content
- Contains 11 amino acids
- Offers UV protection

KEY INGREDIENTS

Biomimetic Ceramides - Panthenol
- Vitamin E - 11 Amino Acids + new
innovative ingredients

HAIR & SCALP CARE OIL

92.27%

NATURALLY DERIVED
INGREDIENTS

KEY FEATURES

- Protects and moisturises the hair and scalp
- Restores hair shine and manageability
- Offers frizz control
- Relieves scalp dryness

HAIR PROTECTION AND SHINE TREATMENT

5 drops in the palm and distribute on lengths and ends on damp hair.

SCALP RELIEF TREATMENT

Using a dropper, apply generously to the scalp. Let it sit for 20 minutes. Rinse thoroughly and shampoo and condition.

KEY INGREDIENTS

Hempseed oil - Argan Oil - Moringa Seed Oil - Phytantriol - Vitamin E - Panthenol

THERMAL SHIELD SPRAY

KEY FEATURES

- A thermal protection spray that provides up to 204°C heat protection
- Multifunctional alcohol-free system
- Healthy hair by naturally protecting against thermal damage
- Controls high humidity and frizz

APPLICATION ON TOWEL-DRY HAIR (RECOMMENDED)

Spray liberally from root to ends, style as usual.

APPLICATION ON DRY HAIR

Spray 6 inches away from hair, let product stand for 2 minutes before hot iron application.

KEY INGREDIENTS

Mango extract- rich in anti-oxidants (Vitamin C) and nutrients.

Contains a natural complex composed of: a-glucan, which comes from Traditional Chinese Medicine Mushrooms (*Polyporus unbellatus*), a rare, edible species of mushroom commonly used in traditional Chinese Medicine, Hyaluronic acid derivative and fructose.

The combination of these three ingredients forms a thin film (shield) on the hair surface, absorbing part of the heat provided by hot styling tools. This shield prevents heat accumulation points that would potentially cause damage to the hair fibres.

GLOSSARY

11 AMINO ACIDS

11 amino acids: Proline, Glycine, Serine, Isoleucine, Phenylalanine, Threonine, Valine, Arginine, Histidine, Aspartic Acid, Alanine. Replenishes the amino acid content in keratin structure, moisturises, strengthens, repairs damaged hair surface and protects hair colour.

Smart Bond Builder and Repair Treatment

ARGAN OIL

Rich in fatty acids, vitamin E and nutrients. Conditions, nourishes, and moisturises the hair and scalp. Adds shine and lustre to hair.

Smart Repair Conditioner

ARNICA

Purifies the scalp and hair. Eliminates excess oil without drying the hair and scalp.

Smart Purifying Shampoo

BIOMIMETIC CERAMIDES

Incorporates itself into damaged areas of the cuticles, replacing the missing lipids that form the Cell Membrane Complex. The cell membrane complex is the material that glues hair cells together.

Smart Bond Builder and Repair Treatment

BURDOCK

Purifies the scalp and hair. Eliminates excess oil without drying the hair and scalp.

Smart Purifying Shampoo

GARLIC

Purifies the scalp and hair. Eliminates excess oil without drying the hair and scalp.

Smart Purifying Shampoo

HEMISQUALANE

Provides light, non-greasy, and silky conditioning. Enhances shine, moisturises the hair and scalp, and prevents frizz and split ends.

Smart Hair and Scalp Care Oil

HEMPSEED OIL

Rich in vitamins, nutrients, and essential fatty acids. Provides hair strengthening and moisture retention benefits.

Smart Repair Conditioner

HYDROLYSED RICE PROTEIN (AMINO ACIDS):

Increases the ability of skin and hair to retain moisture during chemical processes.

Rich in cystine, which contributes to hair's inner strength and elasticity.

Smart Bond Protection and Strengthening Concentrate

IVY

Purifies, cleans the scalp and eliminates any excess lipids.

Smart Purifying Shampoo

MORINGA SEED OIL

Abundant in antioxidants and Vitamins A, C, and E. Promotes collagen building, resulting in improved hair elasticity.

Smart Repair Conditioner

PANTHENOL

Provitamin B5, moisturising, conditioning, frizz control, shine.

Smart Repair Conditioner

Smart Bond Builder and Repair Treatment

PHYTANTRIOL

Improves moisture retention, strengthens hair structure, provides heat protection, colour protection and prevents split-ends.

Smart Repair Conditioner

PINE

Purifies the scalp and hair.

Smart Purifying Shampoo

ROMAN CHAMOMILE

Purifies the scalp and hair.

Eliminates excess oil without drying the hair and scalp.

Smart Purifying Shampoo

ROSEMARY

Revitalises and transfers nutrients to hair and scalp

Purifies the scalp and hair.

Smart Purifying Shampoo

VITAMIN E

Protects hair from damage caused by UV-induced free radicals.

Hair colour protection and prevention of split ends.

Smart Repair Conditioner

Smart Bond Builder and Repair Treatment

WATERCRESS

Eliminates excess oil without drying the hair and scalp.

Smart Purifying Shampoo

WHITE NETTLE

Calms and refreshes the scalp.

Smart Purifying Shampoo

INSTRUCTIONS CHART

OPTION 1: STAND-ALONE SALON SERVICE

1. WASH HAIR USING **Smart Purifying Shampoo Pro** and rinse.
2. MIX 90 ml of water with 3 pumps (8.10 ml) of **Smart Bond Protection and Strengthening Concentrate**. Apply to damp hair.
3. PROCESS 3-5 minutes (do not rinse).
4. APPLY **Smart Bond Builder and Repair Treatment**. Comb for even distribution. Process for 5 minutes and rinse.
5. Gently REMOVE excess water from the hair with a soft fabric towel.
6. Add one or two 5p amount of **Blacklight Smart Oil** on the palm of your hands. Rub your hands together and distribute product on lengths and ends.

OPTION 2: HAIR COLOUR APPLICATION

1. MIX 1 pump (2.70 ml) of **Smart Bond Protection and Strengthening Concentrate** for every 30 ml of hair colour. Add developer as per hair colour instructions. Process colour.
2. APPLY **Smart Purifying Shampoo Pro**. If the shampoo lather turns pinkish, rinse the hair with abundant water until the water runs clear. Do not repeat shampoo application.
3. FOR HEALTHY HAIR: Apply **Smart Repair Conditioner** and process for 3-5 minutes and rinse. FOR POROUS HAIR: Apply **Smart Bond Builder and Repair Treatment** and comb for even distribution. Process for 5 minutes and rinse.
4. Gently REMOVE excess water from the hair with a soft fabric towel.
5. Add one or two 5p amount of **Blacklight Smart Oil** on the palm of your hands. Rub your hands together and distribute product on the lengths and ends.

OPTION 3: LIGHTENER APPLICATION

1. MIX 1 pump (2.70 ml)* of **Smart Bond Protection and Strengthening Concentrate** for every 30 ml of lightener. Add developer as per lightener instructions**.
2. Once processing time is completed, RINSE hair thoroughly with lukewarm water.
3. APPLY **Smart Purifying Shampoo Pro**. If the shampoo lather turns pinkish, rinse the hair thoroughly and gently repeat the shampoo application. Rinse.
4. APPLY **Smart Bond Builder and Repair Treatment**, and comb the hair with a wide-tooth comb for even distribution. Leave on for 5 minutes and rinse.
5. Gently REMOVE excess water from the hair with a soft fabric towel.
6. Add one or two 5p amount of **Blacklight Smart Oil** on the palm of your hands. Rub your hands together and distribute product on lengths and ends.

* For very porous hair, use 2 pumps (5.40 ml) of Smart Bond Protection and Strengthening Concentrate for every 30ml of lightener. Use caution and proper judgment when dealing with very porous hair.

**Do not use more than a 20 volume for on-scalp application.

HOME CARE

1. Use **Smart Purifying Shampoo** and **Smart Repair Conditioner** once a week.
2. Replace **Smart Repair Conditioner** with **Smart Bond Builder and Repair Treatment** once every two weeks or when needed.
3. Use **Blacklight Smart Oil** on damp hair after each washing routine.

† For curly hair, add one or two 5p amount of Blacklight Smart Oil on the palm of your hands. Rub your hands together and gently massage the product on your hair lengths and ends, then use your finger (raking) to aid in distributing and separating your curls.

THERMAL SHIELD

Application on towel-dry hair:

Spray Smart Thermal Shield liberally on hair from regrowth to ends, dry and style.

Application on dry hair:

Spray 6 inches away from the hair, let product stand for 2 minutes prior to hot iron application.

blacklight CARE & STYLING

Revitalise and restore blonde hair with Blacklight's Care & Styling line. Our targeted products repair and treat, from banishing brassiness with our Blue and Purple Shampoos to providing weightless lift with our Volumising line. Experience the ultimate care for your blonde!

Violet Shampoo Anti- Yellow

100 % ingredientes veganos.

Blue Shampoo

11 amino acids and argan oil.
Sulfate, salt & paraben free.
100% vegan ingredients.

Shampooing Bleu

11 acides aminés et huile d'argan.
Sans sulfate, sel & parabène.
Ingrédients 100% végétaux.

Champú Azul

11 aminoácidos y aceite de argán.
Sin sulfatos, sales ni parabenos.
100 % ingredientes veganos.

INGREDIENTS THAT MAKE A DIFFERENCE

11 AMINO ACIDS

- Moisturise hair
- Enhance hair strength and repair surface damage
- Improve hair smoothness and shine
- The composition of amino acids found in these products is modelled after the constituent amino acids of proteins in the cell membrane complex (CMC)

ARGAN OIL

- Hydrates hair in a natural way
- Enhances the elasticity of hair
- Restores hair smoothness and manageability
- Protects the hair against UV rays

SULPHATE, SALT, PARABEN & GLUTEN FREE

- Sulphates remove natural oils from the hair and can increase the level of irritation to the skin and scalp.
- When shampoos containing salt are not rinsed out properly, they cause dryness of the hair and scalp and colour to fade faster.

NO ANIMAL-DERIVED INGREDIENTS

- 100% vegan ingredients

BLACKLIGHT SHAMPOOS & CONDITIONERS

Blacklight offers benefits and optimum care for natural, highlighted, lightened blondes and colour-treated hair. Our Blacklight Shampoos and Conditioners are available in 3 formulas to cater to the complete spectrum of blondes!

NOURISHING FORMULA ANTI-YELLOW FORMULA BLUE FORMULA

All 3 formulas moisturise, strengthen hair structure and repair surface damage while increasing shine and colour retention. They also promote healthier hair and replenish hair in need of moisture and weightless conditioning.

The Blue and Violet formulas have the added benefit of neutralising unwanted warm tonalities, and they feature a professional formula with stronger pigmentation than the retail formula for better tonal control.

All formulas can be mixed to create a custom toner.

Formulas	Direction for use	Frequency of use	Recommended levels	Sizes available
ORIGINAL	Shampoo: Apply to wet hair. Lather, massage and rinse. Follow with the Blacklight Nourishing Conditioner. Conditioner: Apply a generous quantity to clean, damp hair, leave on for 2-5 minutes and rinse.	As needed	All	8.5 oz (250 ml) 32 oz (1 L)
VIOLET	Shampoo: Apply to damp hair. Lather evenly and rinse. Repeat application, leave for 1 to 5 minutes and rinse. Follow with Conditioner. Conditioner: Apply a generous quantity to clean, damp hair after the Shampoo, leave on for 2-5 minutes and rinse.	Use once a week or whenever brassiness re-appears	Levels 8-10	8.5 oz (250 ml) Pro-Formula: 32 oz (1 L)
BLUE	(Use gloves to avoid hand or nail staining).		Levels 5-7	8.5 oz (250 ml) Pro-Formula: 32 oz (1 L)

BLACKLIGHT INTENSIVE REPLENISHING MASKS

All three formulas- Original, Violet & Blue- moisturise, strengthen hair structure and repair surface damage while increasing shine and colour retention. Revitalise hair and restore manageability. A must-have luxury treatment!

The Violet Intense Replenishing Mask is formulated for highlighted, lightened, colour-treated and natural blondes. It eliminates yellow, brassy tones and refreshes faded highlights, leaving hair looking brighter.

The Blue Intensive Replenishing Mask is formulated for highlighted, lightened, colour-treated, natural blondes and brunettes. It eliminates orange, brassy tones, refreshes faded highlights and enhances vibrancy for brunettes.

- Hair colour protection
- Heat and UV protection
- Frizz control
- Shine, moisture balance, strengthen and elasticity.

Formulas	Direction for use	Frequency of use	Recommended levels	Sizes available
ORIGINAL	Apply generously to damp hair. Leave on 5-10 minutes and rinse.	Once a week or as needed	All	6.8 oz (200 ml) 32 oz (1 L) 10 pc display, 27 oz (8 ml) ea.
VIOLET	Apply generously to damp hair. Leave on for 5-10 minutes and rinse. On porous hair, process for 2-5 minutes. Use gloves to avoid hand or nail staining. Do not apply on platinum blonde hair.	Every other week or as needed	Levels 8-10	6,8 oz (200 ml)
BLUE	Use caution on porous, pre-lightened hair.		Levels 4-8	6,8 oz (200 ml)

BLACKLIGHT 18 IN 1 HAIR BEAUTIFIERS

Our Blacklight 18 in 1 Hair Beautifier is now available in 3 different formulas to cater to the complete spectrum of blondes!

ORIGINAL FORMULA

VIOLET FORMULA

BLUE FORMULA

All 3 are lightweight leave-in mists that prepare, protect and beautify the hair while delivering the following 18 essential benefits:

1. Provides light conditioning
2. Protects against colour fade
3. Restores shine and lustre
4. Hydrates
5. Detangles
6. Reduces blow-drying time
7. Enhances manageability
8. Protects against free radicals
9. Protects against heat damage
10. Smoothens split ends
11. Prevents breakage
12. Strengthens
13. Revitalises the hair's natural protective layer
14. Protects against environmental damage*
15. Control porosity
16. Control frizz
17. Reduces static
18. Provides a silky feel

*Hair colour protection, UV protection

The Blue and Violet formulas have the added benefit of neutralising unwanted warm tonalities! They can be used on the go between uses of the Blue or Violet Shampoo and Conditioner.

Formulas	Direction for use	Frequency of use	Recommended levels	Hair profile
ORIGINAL	Mist on clean, towel dried hair. Comb through, blowdry and style as usual.	As needed	All	All
VIOLET	Divide hair into four sections, apply product on each section and comb through for even distribution. Style as usual. Results will last 2-3 shampoos depending on client's habits (use of heat styling tools, type of shampoo used, etc).	Once a week	Levels 9-10 to neutralise unwanted yellow tonalities.	Blonde, colour-treated, highlighted and white hair.
BLUE			Levels 6 to 8 to neutralise brassiness.	Blonde, colour-treated and highlighted hair.

Sizes available: 250 ml

DRY SHAMPOO

Our Dry Shampoo, like all Blacklight products, was created especially for blondes. It has it all, our famous fragrance that's not overpowering, a clean finish that doesn't leave residue and a technology that works, which allows you to skip a shampoo (or two) unnoticed. Help your blonde shine longer and get an extra 20 minutes of sleep!

- Instantly absorbs oil
- Brushes out with no residue
- Leaves hair feeling clean
- Enhances volume
- Contains a physically activated rice starch with a high absorption capacity for sebum and antistatic behaviour. It is also natural and non-GMO

DIRECTIONS:

- Shake well. Spray on dry hair, let dry, massage and brush.

Sizes available: 198 g or 42 g

SHINE DROPS

Creates an instant shine and long-term conditioning without residue.

- Oil-based formula
- Unique quality of instant absorption
- Can be applied to dry or damp hair

DIRECTIONS:

- Place a small amount of oil in the palms of your hands and apply it from the new growth to the ends. May be used on wet or dry hair. Use as necessary.

Sizes available: 198 g or 42 g

blacklight VOLUME COLLECTION

With Blacklight Volume Collection, you can have it all! Healthy hair, highlighted hair, blonde hair AND voluminous hair! Sulphate-free, paraben-free and no animal-derived ingredients.

VOLUMIZING SHAMPOO

The Blacklight Volumizing Shampoo is a mild cleanser formulated with volume-boosting ingredients that offer body, volume and manageability!

- Thermal protection
- Shine
- Colour protection
- Anti-static
- Offers hydration and conditioning

DIRECTIONS:

- Apply to wet hair, lather evenly and rinse. Repeat application if needed.
- Follow with Blacklight Volumizing Conditioner.

VOLUMIZING CONDITIONER

The Blacklight Volumizing Conditioner is designed to deliver superior conditioning, softness, smoothness, volume and shine for all multi-textural hair types.

- Thermal protection
- Shine and smoothness
- Colour protection
- Anti-static

DIRECTIONS:

- Apply a generous amount to clean, damp hair after Blacklight Volumizing Shampoo.
- Massage and rinse. Squeeze the hair to remove excess water.
- Gently towel-dry the hair with a soft fabric.

VOLUMIZING STYLING BALM

The Blacklight Volumizing Styling Balm is a lightweight cream that creates voluptuous long long-lasting moisturisation and shine.

- Flexible hold
- Colour protection
- Humidity resistance
- Controls frizz and split ends
- Thermal protection

DIRECTIONS:

- Evenly massage a small amount on clean, towel-dried hair from the roots to the ends.
- Comb evenly through and style as usual.

THICKENING SPRAY

The Blacklight Thickening Spray increases fullness, adds lift, and creates volume with a smooth finish.

- Shine and smoothness
- Anti-static benefits
- Colour protection
- Heat protection
- Offers 25% faster blow-dry time
- Conditioning and moisturising benefits

DIRECTIONS:

- Apply a generous amount to clean, damp hair after Blacklight Volumizing Shampoo.
- Massage and rinse. Squeeze the hair to remove excess water.
- Gently towel-dry the hair with a soft fabric.

VOLUMIZING FIBER MOUSSE

The Blacklight Volumizing Fiber Mousse gives instant fullness and long-lasting volume. This fibrous mousse is weightless and flexible while offering curl retention even in humid conditions.

- Medium hold
- Anti-static
- Thermal protection
- Repairs and strengthens
- Colour protection
- Suitable for all hair types

DIRECTIONS:

- Shake well. Apply to clean, towel-dried hair.
- Blow dry for extra volume.

VOLUMIZING SHINE HAIRSPRAY

The Blacklight Volumizing Shine Hairspray is a dry aerosol spray that offers long-lasting volume, fullness and shine.

- Medium flexible hold
- Colour protection
- UV protection
- Humidity control
- Heat protection
- Repairs and strengthens

DIRECTIONS:

- Apply a generous amount to clean, damp hair after Blacklight Volumizing Shampoo.
- Massage and rinse. Squeeze the hair to remove excess water.
- Gently towel-dry the hair with a soft fabric.

FAQS- BLACKLIGHT

SHOULD I USE BLACKLIGHT SMART DEVELOPER?

Yes, we recommend using our complete system for optimal and guaranteed performance.

WHICH DEVELOPER SHOULD I USE FOR SCALP APPLICATIONS WITH LIGHTENER?

We recommend a maximum of 6% / 20 volume only for scalp applications with our Lighteners.

CAN I USE POWERSHADES ON THE SCALP?

No, our PowerShades are for off-scalp application only.

WHAT IS GRADUAL BOND PROTECTION TECHNOLOGY WITHIN BLACKLIGHT SMART DEVELOPER?

This technology strengthens the capillary bonds and protects the surface of the hair during chemical treatments. It also replenishes and prevents the loss of natural lipids in the hair. The level of protection varies depending on the concentration of hydrogen peroxide present; as it increases, the built-in protection also intensifies.

SHOULD I MIX A DEVELOPER WITH THE CREAM LIGHTENER?

Yes.

WHAT ARE THE TWO LIPIDS IN BLACKLIGHT CREAM LIGHTENER?

Jojoba oil and olive oil.

CAN I USE HEAT WITH BLACKLIGHT LIGHTENERS?

No, we do not recommend heat.

FAQS- BLACKLIGHT SMART

DO I NEED TO INCREASE THE STRENGTH OF MY CHOSEN DEVELOPER WHEN THE SMART CONCENTRATE IS ADDED TO MY COLOUR OR LIGHTENING FORMULA?

No, this is not necessary.

DO I NEED TO ADJUST THE PROCESSING TIME WHEN THE SMART CONCENTRATE IS ADDED TO MY FORMULA?

No, this is not necessary.

HOW DO I CALCULATE THE AMOUNT OF SMART CONCENTRATE NEEDED IN MY FORMULA?

Follow the recommendations for Colour or Lightener without taking into account the amount of SMART Concentrate.

Then add the SMART Concentrate according to the amount of Colour/Lightener used and the instructions provided.

For example: 30 ml of colour + 30 ml of developer + 1 pump (2.7 ml) of SMART Concentrate.

IS IT POSSIBLE TO USE A SMART DEVELOPER PRODUCT ON THE SAME DAY AS A KERATIN TREATMENT?

Please review and follow the guidelines for the keratin treatment. The components of keratin treatments can vary. It is best to consult the manufacturer of the keratin treatment.

IS IT POSSIBLE TO USE A SMART PRODUCT ON EXTENSIONS?

Yes, we have never tested SMART products on synthetic hair extensions, but they are compatible with natural hair extensions of good quality. For tape or keratin extensions, please consult and follow the manufacturer's recommendations.

ARE SMART PRODUCTS VEGAN?

SMART products do not contain ingredients of animal origin and are not tested on animals.

WHAT ARE THE STEPS TO LIGHTEN AND TONE HAIR?

- 1 Lightener (adding SMART Concentrate)
- 2 Shampoo (using SMART Shampoo)
- 3 Toner
- 4 Apply SMART Conditioner

HOW MANY APPLICATIONS UNTIL YOU SEE RESULTS WITH SMART?

The hair will have a noticeable difference after the first application.

FAQS- BLACKLIGHT SMART

CAN YOU ADD SMART CONCENTRATE TO GLOSS OR FUNKHUE?

We do not recommend adding SMART to Calura Gloss because it contains very low levels of alkalinity; the SMART Concentrate could dilute it further, resulting in very poor longevity and even deviation of the hue.

We rather recommend adding the SMART Concentrate to your lightener formula prior to applying your Gloss formula. It can be added to your FunkHue Formula.

WHAT IS THE DIFFERENCE BETWEEN THE SMART PRO PURIFYING SHAMPOO PRO AND RETAIL FORMULAS?

The Pro formula contains an extra benefit, which is a pH indicator dye. This dye changes the colour of the shampoo lather when harmful chemical residues are present on the hair surface and scalp. The retail formula does not contain a pH indicator. Taking the Pro home will not cause any harm, but the formula was created for stylists.

IS THE RETAIL SMART SHAMPOO A CLARIFYING SHAMPOO?

No. The SMART Shampoo uses milder detergents and can be used frequently. Complementing the mild detergents, it contains natural ingredients that have purifying properties, which decongest the scalp from excess oils, stimulate scalp blood vessel circulation and offer nutrients to the hair bulb.

IF YOU ARE USING SMART DEVELOPERS, DO YOU STILL NEED TO ADD THE SMART CONCENTRATE TO COLOUR OR LIGHTENER?

Best practice recommendations for maximum protection and repair are to use both. However, SMART Developers are a must to provide protection and consistent benefits when lightening if the SMART Concentrate is not available.

HOW CAN I DECIDE BETWEEN USING THE SMART CONDITIONER OVER THE SMART TREATMENT?

Home care for pre-lightened hair:

Use the SMART Shampoo retail. Alternate SMART Conditioner and SMART Treatment once every week.

Home care for coloured hair:

- Use the SMART Shampoo retail and SMART Conditioner once a week.
- Replace SMART Conditioner with SMART Treatment once every two weeks.
